+52 (314)-858-0317 - Camino Real a Colima 445 , San Pedro Tlaquepaque, Jalisco, MX -
<https://harelolguin.dev> - harelolguin22@gmail.com

I'm a software engineer student, passionate about **programming, problem solving** and **learning**. I have broad experience in web technologies, developing **frontend, backend** and **fullstack** applications in different languages and environments. I've also worked in collaborative projects and i consider myself to posses **great communicational skills**, as well as a great understanding on how software projects are worked in **small to large sized teams**.

WORK EXPERIENCE

Software Engineer - Part time @ Roomieland

Currently

I'm currently working as a fullstack engineer for a startup called **Roomieland**. The work consists in developing a web platform on a microservices backend and a NuxtJS frontend. Currently i've been working on great refactors of the microservices and soon i'll move to lead frontend development

Software Engineer - Intern @ Oracle

Feb 2025 - Aug 2025

As an intern in Oracle, i spent most of my time learning internal tools and processes used for a telecommunications product, aim to serve the most important telecommunication companies in Latin America. I learned how to deploy development environments using Kubernetes, XML principles, SOA architecture with SOAP and some Java with Eclipse internal tools

Software Engineer - Intern @ Toshiba GCS

July 2024 - Feb 2025

As an intern, i worked in a team developing an internal AI tool. I developed a new web application using VueJS and Python (Django) which was a chatbot, aimed to help support teams in searching through documentation. I connected backend with frontend, improved authentication strategy to manage scalability and helped in multiple discussions to decide the best strategies to reach the desired outcomes in a given deadline.

Software Engineer - Part time @ Innoventi

Jan 2024 - July 2024

Entry level job where i used my fresh skills to help in the development of a project management tool. Using C# (.NET) and Javascript, i helped in developing authorized administrator pages for analyzing application's data, as well as working closely with Microsoft's SQL Server DBMS.

EDUCATION

2022 - 2026

Instituto Tecnológico de Estudios Superiores de Occidente (ITESO)

Software Engineer

SKILLS

- **Programming Languages:** Javascript / Typescript, Java, C#, Go, Python, C.
- **Software Concepts:** REST APIs, OOP, Distributed systems, Design principles, Microservices, Containers and orchestration, UX / UI.
- **Backend Tech:** NestJS, .NET, Go HTTP, Django, ExpressJS.
- **Frontend Tech:** React, Vue, Angular, Astro, NextJS, Nuxt, JQuery, TailwindCSS
- **Databases:** SQL Server, PostgreSQL, OracleDB, MongoDB.
- **Dev Tools:** Linux, Docker, Kubernetes, Shell scripting, Git, Github Actions, AI Tools.
- **Soft skills:** Know how to work on collaborative environments, communicate problems and ideas and love teaching and learning every time i can.
